

# Climaf

## Spécifications

- Produits tropicalisés
- Condenseurs (blue fine coil).
- Boîtier externe galvanisé à chaud.
- Design Japonais compact et très télécommande.
- Fonctionnement silencieux.
- Basse consommation
- Flux d'air réglable: sélection de vitesse et orientation des déflecteurs par télécommande.
- Les climatiseurs Climaf sont conformes aux directives Européennes et U.S., pour la sûreté du produit et sont certifiés par le système de Qualité de l'Entreprise ISO 9001.

**Model 47**

KF-25GW/A KF-32GW/A

KF-25GW/E, KF-32GW/E

KF-25GW/E KF-32GW/E

KF-51GW KF-66GW

Adopted world-famous compressor such as Mitsubishi, Hitachi, LG etc, enable high efficiency cooling and long service for air conditioner unit.

Multi-fan evaporator in indoor unit could enlarge the equal heat area and enhance the cooling/heating efficiency, also make the units more compact in size.

Double louvers delivery wind up and down could avoid cooling/heating human body directly.

New antibiotic louver that had broke through traditional antibiotic mechanism, use electric field force to get rid of germs, prevent streptococcus, Clostridium, White blood fungus etc.

Defrosting fully controlled by microprocessor to ensure the effective heating conditions.

Superior inner-grooved copper tube that enable refrigerant flow much faster in the copper tube, enhance heat exchange efficiency up to 30-50% compared with the traditional smooth copper tube.

Blue-colored hydrophilic slum film in indoor unit that free from water contamination, which enhance the heat-exchange efficiency.

Deep sleeping mode auto control function to set, the room temperature adjustment will be automatically made to fit the human body temperature.

Fresh air exchange function could exhaust indoor air from indoor and exchange fresh air from outdoor.

Independent dehumidifier could lower water vapor in the room rapidly, but do not affect cooling when dehumidifying.

Unique fan house design, large diameter, straight line and low noise indoor/outdoor fan and special duct design that enable the unit in quiet operation.
